

Episode: Sonic Boom

Transcript by: HazyAssaulter (Taylor Nast)

Written by: Len Janson

(Scene: Robotropolis building)

SWATbot: Hall secure.

Sonic: Come on, come on! Get the old leadski out, guys! I'm waiting! ... Chill!

SWATbutt!

Sally: Hi, guys.

Sonic: About time, Sal! You ready?

Sally: Ready!

Sonic: Okay, guys, let's do it to it! Cat, Antoine, you guys cover our backs. Any bots show up, give us the signal. Any questions?

Antoine: Yes, I'm having a question. What if-

Sonic: Cool! I'm outta here! Let's lock and load, Sal!

Antoine: Bon voyage!

Cat: Good luck!

Sonic: Man, what is all this stuff?

Sally: It's the brains of the plane.

Sonic: And you're going to do a little brain surgery, right?

Sally: More or less. First I break the access code, get into Robotnik's mainframe computer, and reprogram the launch data.

Sonic: Then kaboom! These stealthbots are lunchin', yes?

Sally: They're lunchin', yes. Nicole.

Nicole: Ready, Sally.

Sally: Access main database.

Nicole: Password, Sally.

Sally: Run decoding program for "X." Sonic, do you mind?

Sonic: Not very well, dogs mind, not hedgehogs.

Sally: Well show a little patience.

Sonic: Hey hey hey! Patients are for hospitals, we're in Robo-country, and that makes me itchy! Woah! Hurry it up, Sal! Party crashers comin'!

Nicole: Incoming message.

Sonic: "Bean!?"

Sally: Oh my gosh, Sonic, my father called me Bean when I was little. Nicole, give me message origin.

Sonic: Sal, we gotta put the pedal to the metal!

Sally: I have to check this out, it may be from my father!

Nicole: Message origin: Area 12, Sector 9, Quadrant 32.

Sally: The Dark Swamp?!

Antoine: Huh, what is taking them so long?

Cat: Those computers can be tricky. Relax, Antoine.

Antoine: Relax? Yes, a very good idea- Waaaahhhhh!

Sonic: Oh, man! Ant did it again! Look Sal, when I juice, jam for the air duct, I'll meet you at the usual place!

Sally: Be careful, Sonic.

Sonic: Yo, Swatbutts! How about a little laser tag? You're it!

Antoine: Upsy-doozy my princess!

Sonic: Yo, Swatbutts! Are you wonder-weasels lookin' for me? I'm the only one around.

(Scene change: Air vents)

Cat: Here comes trouble!

(Scene change: Outside Robotropolis)

Sally: It's Sonic!

Sonic: What happened, Antoine?!

Antoine: It is not my fault! Cat said I should relax and I leaned against a-

Sonic: Yo, where's Cat?

Sally: He was right behind us in the tunnel, and then we lost him!

Sonic: Swatbots must have busted him! I'm juicing back!

Sally: Sonic, I'm sure that message was from my father. I'm going to the dark swamp and finding him. Antoine can come with me.

Sonic: Antoine?

Sally: Yes, Antoine!

Sonic: You're kidding, right?

Sally: I'm kidding, wrong!

Sonic: Wrong?

Sally: Right.

Sonic: Right, or wrong?

Sally: You're wrong, I'm right, as usual.

Sonic: Excuse me while I chunk my breakfast.

Sally: Whatever. Come on, Antoine.

Sonic: Yo Sal! Soon as I find Cat, I'll blast for the swamp. Be mondo-careful!

Sally: You too, Sonic.

Sonic: Gotta juice and loose!

(Scene change: Robotnik's control room)

Robotnik: Tell me Snively, how did the hedgehog get past all my security?

Snively: Through an air duct, Dr. Robotnik.

Robotnik: An air duct...

Snively: Yes, sir.

Robotnik: Then seal it up!!!

Snively: Yes, sir. One more thing, sir. We captured a Freedom Fighter.

Robotnik: Oh that's good, that's very very good, Snively. Where is he?

Snively: Bring in the prisoner.

Robotnik: Tell me where Knothole is, old boy, and you have my word that you will not be robotocized.

Cat: I'm telling you nothing about nothing, Robotnik!

Robotnik: Oh, oh I wouldn't be so sure about that old boy. I have machines of all kinds, marvelous machines, that can do things you would not believe.

Cat: *gulp*

(Scene change: Robotropolis hangar)

Sonic: Hang in, Cat!

(Scene change: Prison cells)

Sonic: Psst, Cat! You alright?

Cat: Robotnik's surveillance picked up Sally. He knows she's headed for the Dark Swamp! You gotta save her!

Sonic: But what about you?

Cat: Doesn't matter, go Sonic go!

Sonic: Not to worry, Cat, I'll be back!

(Scene change: Dark Swamp)

Antoine: How much more farther, my princess?

Sally: We'll know when we'll get there, Antoine.

Antoine: AH!

Sally: Antoine, what's wrong?!

Antoine: A thousand pardons, my princess!

Sally: Are you alright? You're trembling.

Antoine: Not trembling, my princess! Shivering, yes I must have caught a uh- how do you say uh- Achoo! A terrible cold! Um, I think we should return to Knothole.

Sally: No, Antoine. My father is alive, I know it. And I'm going to find him.

Antoine: But we are having no idea where he is.

Sally: Nicole, is there any kind of structure in the Dark Swamp?

Nicole: Searching. One structure. Ironlock prison. Schematic display.

Sally: Ironlock prison?! Oh no! Come on, Antoine!

Antoine: Princess, wait!

(Scene change: Outside the Dark Swamp)

Sonic: Oh man, I hate swamps! They're full of bugs and junk! Juice time! Sally! Bummer...woah! Yeah, now we're getting somewhere.

(Scene change: Robotnik's control room)

Snively: Dr. Robotnik! We have the hedgehog, he's in the Dark Swamp!

Robotnik: He's looking for the princess...a possible double-header. Launch the stealthbots.

Snively: Yes, sir.

(Scene change: The Dark Swamp)

Antoine: How much farther, my princess?

Sally: Any minute, Antoine.

Antoine: Sacrebleu! Is that-?

Sally: Yes, Ironlock. Nicole, give me all data on Ironlock.

Nicole: Searching, Sally. Built in 1543, abandoned 100 years ago. No other data.

Sonic: Woah! Hedgehog missile alert! Heading warp seven! Time to dust one stealthbot!

(Scene change: Outside Ironlock)

Antoine: My princess, I am thinking this is not safe!

Sally: Don't be such a worry wart, Antoine.

Antoine: Wah! Are you alright my princess?

Sally: Ah! I'm fine!

Antoine: Gah! Alright princess! Run! Come on Antoine! That's right! Come on Sally! Pull up! Princess, I am hating to be such a, um, how you say, such a worry-worm, but zis terrible place, it is not so good for our health; I am thinking this is so. We go home, yes?

Sally: We go home, no, Antoine. If my father is in there I'm going to find him, is that clear?

Antoine: Oui, oui, my princess. Very clear, but-

Sally: No buts, Antoine. Now let's go...Antoine!

Antoine: Oui, oui, princess here I am! I am right behind you, princess.

Sally: That's comforting.

(Scene change: The Dark Swamp)

Sonic: Right behind ya, Sal!

(Scene change: Inside Ironlock)

Antoine: My princess, maybe I am thinking we should-

Sally: Antoine, look!

Antoine: What is it?

Sally: It's from my father's cloak, I recognize the design. He was here! Come on!

Antoine: AH! Heheheh, hello! It was just a clever way to get in your arms, my princess.

(Scene change: Outside Ironlock)

Sonic: Woah, mondo-spooky!

(Scene change: Ironlock cell)

Sally: Antoine, my father was in here.

Antoine: Mmm, this is good yes? YAHH!

Sonic: Ha ha, what are you doin' up there, Ant?

Sally: Sonic!

Sonic: What's up Sal?

Sally: Look what I found.

Sonic: A computer, so?

Sally: My father must have sent me those messages from this computer.

Sonic: Looks real ancient, does it work?

Sally: I don't know, keep your fingers crossed...yes!

Computer: Access code, please.

Sally: Try, "Bean."

Computer: Standby for message. "Bean. Check subter file, deposit," end of message.

Sally: That's definitely from my father, somehow he knew I'd find it.

Antoine: Fantastique! What does it mean?

Sally: He didn't finish the message, but at least now I know he's alive. I just don't know where! Computer, access subter file.

Computer: Checking subter file.

Sally: Guys, look at this! Do you know what these maps do? They give us access to all of Robotropolis!

Sonic: Check out the tunnels! Man I didn't know they existed!

Nicole: Ready, Sally.

Sally: Access main database.

Nicole: Accessing. Password, Sally.

Sally: Subter.

Sonic: Nicole! Get the old data out!

Nicole: Access granted.

Sally: Transfer to holographic disc.

Sonic: Hey! What's going on?

Antoine: Oh, terrible! What happened?

Sonic: That dumb cell was booby-trapped is what happened?

Antoine: But what is this place?

Sonic: Eww, whatever it is it sure stinks. Okay you guys, hang here, I'm gonna scope out that red light.

Sally: Sonic? Are you okay?

Sonic: Wherever we go, we can't go that way!

Antoine: Why not?

Sonic: That's why!

Sally: Oh my gosh, what is it?

Sonic: Someone you never want to marry. Plus, he's in a bad mood.

Sally: But that's our only way out!

Antoine: What what what what are we going to do?

Sonic: Ask about his mother, maybe he's not such a bad guy. No, he's rotten to the core! I've got an idea! Sal, grab the power ring! Okay, when I hold out my hand, slap it in!

Sally: Got it.

Sonic: Juice time! Hold on!

All: Ahhhhhhhh!

Sonic: Chill guys, everything's cool!

Sally: Sonic, how did you know it was robotic?

Sonic: The hedgehog knows.

Antoine: But now, I am thinking we are having another problem, hm? How do we get the hecks out of here?

Sally: Nicole, bring up "Bean."

Sonic: I'm waiting.

Sally: I have a great idea! We'll take that tunnel!

Sonic: Woah, way cool.

Sally: According to those maps, we should be very close.

Antoine: To what?

Sally: You'll see, follow that light source. Let's go.

(Scene change: Stealthbot hangar)

Sally: Done, that's the last one. These stealthbots are history!

Sonic: I got one more thing to do. Meet you guys at the usual. Gotta juice!

(Scene change: Prison cells)

Sonic: Cat?! Wah!

Swatbot: Intruder alert: Detention building. Intruder alert.

Robotnik: Consider yourself terminated, hedgehog!

(Scene change: Outside Robotropolis)

Sonic: He's launching the stealthbots! News at 11:00.

Robotnik: What is this?! Snively! Recall them!

Snively: Yes, sir.

Sonic: Yo, Robuttnik! That was for Cat!
